Welcome to QMED 2026

It is our great pleasure to welcome you to the 3rd Edition of the Qatar International Medical Devices & Healthcare Exhibition & Conference (QMED 2026), taking place from 14–16 October 2026 at the Qatar National Convention Centre (QNCC), Doha, Qatar.

QMED 2026 brings together leading healthcare institutions, medical device manufacturers, pharmaceutical companies, laboratories, healthcare providers, technology innovators, distributors, investors, and healthcare professionals from Qatar and around the world.

The event provides a comprehensive platform for business, knowledge exchange, innovation, professional development, and strategic partnerships, reflecting Qatar's growing role as a regional hub for healthcare excellence and investment.

This year's edition combines a specialized international exhibition with a comprehensive scientific and professional programme featuring conferences, scientific sessions, workshops, masterclasses, and academic activities, bringing together distinguished physicians, healthcare professionals, researchers, academics, industry leaders, and experts from different fields.

With an expected participation of more than 20,000 professional visitors and around 150 exhibitors, QMED 2026 offers an important meeting point for the healthcare community to discover emerging technologies, explore new products and solutions, exchange expertise, and develop meaningful partnerships.

We extend our sincere appreciation to the Ministry of Public Health, our strategic sponsors, partners, exhibitors, speakers, participating institutions, and all supporting organizations whose contribution continues to strengthen QMED as an important platform for the healthcare sector.

We warmly welcome all visitors, exhibitors, speakers, delegates, and partners to QMED 2026, and wish you a successful, productive, and inspiring experience in Doha.

Welcome to QMED 2026 - Connecting Healthcare, Technology, Knowledge and Opportunity.

Alfardan Medical with Northwestern Medicine

Located in the heart of Lusail, Alfardan Medical with Northwestern Medicine (AMNM) is a leading ambulatory medical and surgical center dedicated to delivering exceptional healthcare through a unique combination of clinical excellence, innovation, and personalized patient care.

Established through a collaboration between Alfardan Corporation and Northwestern Medicine, Chicago's premier academic health system, AMNM brings internationally recognized healthcare standards to Qatar through a patient-centered American model of care. This partnership combines Alfardan Corporation's legacy of service excellence with Northwestern Medicine's renowned expertise in medicine, research, and clinical best practices.

AMNM offers comprehensive healthcare services across a wide range of medical and surgical specialties, supported by a distinguished team of highly qualified physicians, surgeons, nurses, and allied health professionals from around the world. Patients benefit from a multidisciplinary approach that encourages collaboration across specialties, ensuring coordinated, evidence-based care tailored to individual needs.

Our state-of-the-art facility features advanced diagnostic imaging, comprehensive laboratory services, modern operating rooms, rehabilitation services, and innovative treatment technologies designed to support accurate diagnosis, effective treatment, and optimal outcomes. From preventive health and wellness programs to specialized medical and surgical care, AMNM provides a seamless healthcare journey under one roof.

Beyond clinical excellence, AMNM is committed to delivering a healthcare experience defined by comfort, convenience, compassion, and personalized attention. Every aspect of our facility has been thoughtfully designed to create an environment where patients and their families feel supported throughout their healthcare journey.

At AMNM, we continue to set new standards in healthcare by combining world-class medicine with exceptional service, helping individuals and families achieve healthier lives while meeting the evolving needs of Qatar's community.

For bookings & inquiries call 4004 6000 or scan the QR Code to learn more.

Message from the Organizer

It is with great pleasure that we welcome you to the 3rd Edition of the Qatar International Medical Devices & Healthcare Exhibition & Conference (QMED 2026).

Over the years, QMED has developed into a dedicated platform connecting healthcare professionals, medical institutions, manufacturers, suppliers, innovators, investors, and industry leaders from Qatar and around the world. The 2026 edition represents another important step in our commitment to creating a meaningful platform for the healthcare sector and supporting the continued development of medical and healthcare services.

At Sogha Exhibitions & Conferences, we believe that successful healthcare events should go beyond exhibition and business opportunities. They should create an environment where knowledge is shared, ideas are exchanged, innovation is showcased, and meaningful professional relationships are developed.

For this reason, QMED 2026 brings together a specialized exhibition alongside a comprehensive scientific programme featuring conferences, scientific sessions, workshops, masterclasses, and academic activities. The programme provides healthcare professionals with opportunities to learn from leading experts, exchange experiences, and explore developments shaping the future of healthcare.

We are particularly proud of the strong participation of leading healthcare institutions, international companies, national and international pavilions, academic partners, professional organizations, and strategic sponsors. Their support and participation are essential to the continued growth and success of QMED.

We would like to express our sincere appreciation to the Ministry of Public Health for its support and patronage, and to all our sponsors, partners, exhibitors, speakers, healthcare institutions, and participating organizations for their valuable contribution.

We also extend our appreciation to every healthcare professional and visitor joining us at QMED 2026. Your participation is what gives this platform its true value.

We look forward to making QMED 2026 a productive meeting point for healthcare, technology, innovation, education, and investment, and to welcoming you to Doha.

About QMED 2026

The Qatar International Medical Devices & Healthcare Exhibition & Conference (QMED 2026) is a specialized international platform dedicated to the medical devices, healthcare, pharmaceutical, laboratory, medical technology, and healthcare services sectors.

Held under the patronage of the Ministry of Public Health – Qatar, the 3rd edition of QMED will take place from 14–16 October 2026 at the Qatar National Convention Centre (QNCC), Doha.

QMED 2026 brings together healthcare institutions, government and public-sector organizations, hospitals and medical centres, manufacturers, distributors, pharmaceutical companies, laboratories, technology providers, investors, academics, researchers, and healthcare professionals from Qatar and international markets.

The event is designed to create a comprehensive platform where business, healthcare innovation, education, professional development, and knowledge exchange come together. It provides exhibitors with opportunities to present their latest products, technologies, solutions, and services, while offering healthcare professionals a valuable environment to explore emerging developments and exchange expertise.

Exhibition & Innovation

The exhibition covers a broad range of healthcare sectors, including medical devices and equipment, diagnostics and laboratory solutions, pharmaceuticals, healthcare technology, digital health, medical tourism, wellness, healthcare insurance, and medical education and innovation.

Dedicated exhibition zones provide focused platforms for companies and institutions to showcase specialized products and services and connect with relevant decision-makers and professionals.

Scientific & Professional Programme

QMED 2026 also features a comprehensive scientific and professional programme comprising conferences, scientific sessions, workshops, masterclasses, and academic activities.

The programme brings together physicians, pharmacists, nurses, laboratory specialists, researchers, academics, healthcare executives, and industry experts to discuss current developments, share knowledge, and explore emerging trends across different areas of healthcare.

International Participation

The event welcomes international companies, institutions, professional organizations, and national pavilions, creating opportunities for cross-border cooperation, commercial partnerships, technology exchange, and investment.

With an expected participation of more than 20,000 professional visitors and around 150 exhibitors, QMED 2026 aims to provide a dynamic meeting point for the healthcare community in Qatar and the wider region.

Connecting the Healthcare Community

QMED 2026 is more than an exhibition. It is a platform designed to connect people, knowledge, technology, and opportunities across the healthcare ecosystem.

Through its combination of exhibition, scientific activities, professional networking, and international participation, QMED 2026 seeks to contribute to the development of healthcare partnerships and support the continued advancement of the healthcare sector in Qatar.

Apex Health, a subsidiary of Estithmar Holding, is the fastest-growing healthcare group in the MENA region, with eight hospitals across Qatar, Iraq, Libya and Algeria. Its integrated model spans design, development, construction, equipping, commissioning and operation. Combining institutional capital strength, infrastructure, clinical capability, workforce and governance, the group creates resilient healthcare ecosystems that deliver measurable outcomes and long-term community value.

Every facility follows an internationally benchmarked quality framework, with outcomes measured and reviewed at group level. Apex Health entities hold the Arab Hospitals Federation's Holistic Role Model recognition, its highest designation, and recognition from the International Hospital Federation, reflecting accreditation-grade systems across four countries and multiple regulatory regimes.

In Qatar, The View Hospital's affiliation with Cedars-Sinai covers clinical protocols, quality frameworks and physician education, embedding academic medical-centre standards in daily practice. Korean Medical Center provides specialised Korean healthcare through seven centers: Executive Health, Spine and Joint, Pain Management and Rehabilitation, Dental, Fertility, Beauty and Wellness, and Primary Care. Both support medical tourism by providing Qatar and GCC patients with specialised regional care, reducing the need for treatment abroad. The network also includes The Military Medical City Hospital Managed by EWS, an advanced hospital affiliated with WMC and dedicated to Qatar's Armed Forces.

Internationally, Apex Health operates Al Imam Al Hassan Al Mujtaba Teaching Hospital in Karbala and Al Nasiriya Teaching Hospital, both delivering tertiary care, while developing Baghdad International Hospital as a major healthcare destination. The Algerian Qatari German Hospital (HAQA) extends its platform into North Africa, while Apex Health supports specialist cardiovascular services in Libya through Misrata Heart and Cardiovascular Center.

Across markets, Apex Health builds and equips facilities to international standards, recruits internationally credentialed clinicians, and transfers clinical and managerial capabilities to local teams. Centralised systems, shared services, technology investment, and structured clinician recruitment and development programmes support efficient expansion across new and existing markets without compromising care.

Apex Health aims to become the reference operator for advanced healthcare in the Middle East and North Africa, delivering sustainable healthcare systems, measurable outcomes and trusted quality care.

MedBridge

Distribution & Trading

Medbridge is Apex Health's distribution and trading arm, created to help hospitals reduce costs, improve purchasing transparency, and strengthen operational performance across the supply chain.

We partner closely with hospitals, clinicians, and suppliers to unlock measurable savings while maintaining quality and continuity of care.

Through strong supplier partnerships and structured purchasing programs, Medbridge helps organizations access better

pricing on everyday supplies, optimize purchasing volumes, and achieve long-term value.

What We Do

Deliver strategic procurement

to drive savings, transparency, and operational efficiency.

Optimize medical, surgical, and pharmacy sourcing

through strong supplier partnerships.

Enable clinician-led purchasing

with flexible models and quality-driven decisions.

Maximize value

from capital equipment

through total cost of ownership planning.

Strengthen supply chain resilience

with data-driven visibility and demand planning.

أكثر شمولاً وشفافية
واستباقية.

منصة الكترونية وطنية أطلقتها وزارة الصحة العامة لتعزيز مشاركة القطاع الصحي في رسم سياسات الرعاية الصحية المستقبلية، من خلال مساهمة المؤسسات الصحية المرخصة في صياغة مشاريع الأنظمة واللوائح والإرشادات الصحية.

Building Better Healthcare Ecosystems

Integrated healthcare development across Qatar, the GCC and Africa

DOC Holding Group, Qatar (DHQ) is a healthcare investment and service provider headquartered in Doha and registered with the Qatar Financial Centre (QFC). We are at the forefront of revolutionizing healthcare delivery in high-growth markets, with a strategic focus on Qatar, the wider GCC, and Africa.

Our integrated model combines the development of state-of-the-art medical facilities, advanced hospital management systems, and strategic healthcare investments.

We are more than just a healthcare provider; we are builders of sustainable, defensible healthcare ecosystems designed to bridge critical gaps in specialized care.

DOC Medical Center is a leading care destination for Orthopedic, Neuroscience, and Rehabilitation services.

Regenerative Medicine

MBST

Health starts in the cell

MBST® uses magnetic resonance technology adapted for therapeutic applications. By stimulating cells, the therapy is designed to support biophysical processes within tissue and the body's natural repair and regeneration processes.

Stem Cells

Stem-cell applications may support selected orthopaedic and regenerative care plans. Treatment suitability depends on the patient's condition and clinical assessment.

PRP

PRP uses a concentrated portion of the patient's own blood as part of selected orthopaedic treatment plans. It is used to support recovery in appropriate clinical cases.

Latest Technology

Robospine

Robospine is an advanced robotic spinal decompression system that gently stretches and decompresses the spine using intelligent robotic control. The therapy is designed to reduce pressure on spinal discs and nerves and support recovery. Unlike conventional traction approaches, Robospine uses computer-controlled precision to deliver targeted spinal decompression.

Aqualine

Aqualine is a specialized spinal therapy system that combines advanced spinal treatment techniques to support disc recovery and reduce nerve pressure.

MAESTRO

A Symphony of Beauty

• Dr. Yaman Haddad •

مركز مايسترو الطبي
maestro
Dr. Yaman Haddad
51124040

الدكتور يمان حداد

المؤسس و المدير التنفيذي لمركز مايسترو الطبي

في مركز مايسترو الطبي، يتجاوز مفهوم الرعاية الطبية حدود العلاج، ليصبح تجربة متكاملة تجمع بين العلم، الفن والجمال.

يضم المركز نخبة من الأطباء المتخصصين في طب الأسنان والجلدية، يعملون بتناغم وفق أحدث التقنيات والتكنولوجيا الطبية، لتقديم رعاية متكاملة تضع احتياجات المريض ورضاه في مقدمة الأولويات.

ويشمل فريقنا مجموعة متكاملة من تخصصات طب الأسنان، بدءًا من العلاج والترميم، والتقويم، والجراحة، وزراعة الأسنان، وصولًا إلى تصميم ورسم أجمل ابتسامة طبيعية.

ففي مايسترو، نؤمن بأن العمل المتكامل هو أساس النجاح، وأن أفضل النتائج تُصنع عندما يجتمع العلم مع الخبرة والفن.

لأن الجمال سمفونية فيه و هذه السيمفونية تحتاج إلى مايسترو.

MOHAMED BIN HAMAD HOLDING
شركة محمد بن حمد القابضة

A Legacy of Healthcare Excellence

With a legacy spanning more than six decades, Mohamed Bin Hamad Holding Company (MBHHC) is a prominent Qatari business group with healthcare at the heart of its diversified portfolio. **Founded by the late Sheikh Mohamed Bin Hamad J. Al Thani and chaired by H.E. Sheikh Jassim Bin Mohamed Al Thani**, MBHHC has played a longstanding role in the development of Qatar's private-sector healthcare landscape.

Today, MBHHC has built a growing healthcare ecosystem spanning hospitals, specialized medical centers, pharmacies, pharmaceutical services, medical supplies, and health and wellness solutions. Through its healthcare businesses, the Group is committed to delivering accessible, high-quality, patient-centered services while embracing innovation, advanced technology, and evolving models of care.

The Group's longstanding presence and growing influence have also earned international recognition. **MBHHC was named among Forbes Middle East's Top 100 Arab Family Businesses for two consecutive years, in 2025 and 2026.**

Among its healthcare portfolio are **Doha Clinic Hospital, ICON Medical Center, Ibn Al Haytham Pharmacy, Ibn Al Haytham Medical Co., Ibn Al Haytham Center, SPIA Medical Center, ICON Pharma, and Noura Pharmacy.** Together, these businesses reflect MBHHC's commitment to providing a diverse and integrated range of healthcare services to the community.
